Guitar & Ukulele Lessons

Playing music with others is an important part of getting better at an instrument, yet this is often the hardest thing for people to do. The Durham Guitar Group provides an opportunity to play songs with other people in a relaxed atmosphere. The goal of the group is to have fun while also getting better at the guitar.

The songs we play will be very straightforward. There is no need to be overly concerned with your ability level. Alternate fingerings will be given for those who are just starting out.
